

# Introduction to Adobe Photoshop Lightroom training course

## Introduction

Adobe Photoshop Lightroom is essential for today's digital photography workflow. Photoshop Lightroom allows you to quickly import, process, manage, and showcase your images with ease, whether you are working with one shot or an entire shoot.

Our *Introduction to Adobe Photoshop Lightroom* training course provides a comprehensive introduction to the powerful capabilities of this product.

## General information

- ▶ As an Adobe Authorised Training Centre (AATC), Armada meets the demanding standards specified by Adobe, ensuring a high standard of training.
- ▶ The trainer for this course is an Adobe Certified Instructor (ACI) and Adobe Certified Expert (ACE) for Lightroom.
- ▶ Hands-on exercises familiarise delegates with the concepts and operations.

## When and where?

*Introduction to Adobe Photoshop Lightroom* training is run *on-demand*, meaning that the course can be run on a date and at a location that suits you, which may be our training centre in Bromsgrove (close to Birmingham and the M5/M6/M40/M42 motorway network) or your venue.

## Who should attend?

*Introduction to Adobe Photoshop Lightroom* training is aimed at new and novice users.

## Which version of Lightroom is covered?

As an *on-demand* training course for your group, *Introduction to Adobe Photoshop Lightroom* training can be based on any recent version of Lightroom. This course is appropriate for Windows and Mac users alike.

## Duration

Two days.

## Courseware and certification

Delegates receive courseware to refer to throughout the course, and to use as a refresher following the course. Delegates are issued with an Adobe certificate confirming they have attended and successfully completed the course.
