

# Website creation with Adobe Dreamweaver - advanced

## Course objective

This course enables delegates to use Dreamweaver's more advanced features.

Delegates learn how to add interactivity to a website, import and display data source files into a website, and how to locate and use third-party website resources.

## General information

- ▶ As an Adobe Authorised Training Centre (AATC), Armada meets the demanding standards specified by Adobe, ensuring a high standard of training.
- ▶ The trainer for this course is an Adobe Certified Instructor (ACI) for Dreamweaver.
- ▶ Hands-on exercises familiarise delegates with Dreamweaver concepts and techniques.

## Who should attend?

*Advanced Adobe Dreamweaver* training is ideal for those already proficient in using Dreamweaver to create and maintain static websites, and delegates who have attended our *Website creation essentials with Adobe Dreamweaver* course.

## Duration

One day.

## Courseware and certification

Delegates work with files throughout the course, which they take with them to use as a refresher following the course. Delegates are issued with a certificate confirming they have attended and successfully completed the course.

## What version of Dreamweaver is covered?

As an *on-demand* training course (for your group), *Website creation with Adobe Dreamweaver – advanced* training can be based on any recent version of Dreamweaver.

This course is appropriate for Windows and Mac users alike.

## Location, price and further information

This course is arranged *on-demand* for your group, meaning that the course can be run on a date and at a location that suits you, which may be our training centre in Bromsgrove in the Midlands or your venue.

For pricing and further information, please contact Jackie Morris or Steven Smith on 01527 834783 or email them at [training@armada.co.uk](mailto:training@armada.co.uk).
