

Intermediate MadCap Flare

Training course outline

MadCap Flare is a state-of-the-art, XML-based solution for online help development.

Intermediate MadCap Flare training teaches all you need to create a working help project with media-rich content and full navigation features.

Course summary

Teaches how to use Flare to create a working help project with media-rich content and full navigation features.

You learn how to work efficiently and effectively with Flare, becoming familiar with features including variables, conditional text and multi-format publishing.

Duration

Two days.

Who should attend?

Newcomers to MadCap Flare and novice MadCap Flare users, including anyone who has previously developed online help using another tool and is switching to Flare.

Prerequisites

MadCap offer a days' basic training (online) free-of-charge. It is a prerequisite of our *Intermediate MadCap Flare* course that delegates have taken this course.

In-class or live online

You can attend this course in-person at any of our centres, or participate online from your place of work or home.

To read about our approach to online training, see armada.co.uk/live-online-training.

General Information

Our *Intermediate MadCap Flare* course is accredited by MadCap.

Training is hosted by a MadCap Certified Instructor with vast experience of using Flare professionally.

Intermediate MadCap Flare training is arranged on-request, i.e. one-to-one training or a course for your group. This means that your training can be:

- Provided when it suits you.
- Adapted to reflect your projects.

Whilst attending training at our centres, delegates have the use of a computer running licensed Flare software to practice the techniques taught.

Course fees can be paid by card or bank transfer. We accept purchase orders from UK-registered companies and public sector organisations.

If you're self-funding your training, you can pay in staged payments, interest-free, over 12 months.

Course materials and certificate

Delegates receive:

- Comprehensive training materials.
- A certificate confirming successful completion of *Intermediate MadCap Flare* training.

Method of delivery

Training is designed for the busy professional, being short and intensive and combining lecture and demonstration. Practical exercises carried out under guidance help delegates to learn the techniques taught.

Delegates have ample opportunity to discuss specific requirements with the trainer.

After course support

Following MadCap Flare training, you're entitled to 30 days' email support from your trainer.
