

# Intermediate technical authoring

## Training course outline

Builds on the concepts and skills taught in our introductory course, teaching further key techniques that define high quality technical authoring, increasing your ability to create more effective technical documents.

This course forms the second module of Armada's ISTC-accredited Technical Authoring Training Programme. It is also ideal as a stand-alone course.

### Course summary

Teaches practical techniques for creating effective and consistent technical documentation, including:

- Producing effective technical documents that are easy to read, easy to understand and easy to act upon.
- Using a writing process structured around industry-standard best practice to improve documentation quality.
- Improving the understanding of your documents by structuring information in ways that are helpful to your readers.
- Developing a clear and concise writing style.
- Building readability through effective sentences, paragraphs and sections.

You will be able to:

- Identify the key international standards in technical writing.
- Identify the most commonly used applications in technical writing.
- Use a detailed end-to-end writing process to design, draft and improve your technical documentation.

### Duration

Two days.

### Who should attend?

Those embarking on a career in technical authoring (after attending the introductory course), and existing technical authors who want to improve their skillset.

### In-class or live online

You can attend course in-person at any of our centres, or participate online from your place of work or home.

To read about our approach to online training, see [armada.co.uk/live-online-training](http://armada.co.uk/live-online-training).

### General information

For over two decades, Armada has been a leading provider of technical authoring services. We have employed and worked with some of the most talented and knowledgeable technical authors in the UK. Our background in the industry makes us ideally suited to offering technical author training.

Courses are hosted by highly experienced instructors, who 30+ years' experience in technical authoring and related roles.

Whilst attending training at our centres, delegates have the use of a computer to practice the techniques taught.

Course fees can be paid by card or bank transfer. We accept purchase orders from UK-registered companies and public sector organisations.

If you're self-funding your training, you can pay in staged payments, interest-free, over 12 months.

### Course materials and certificate

Delegates receive:

- Comprehensive training materials.
- Checklists and job aids to focus each stage of the writing process.
- An e-certificate confirming successful completion of *Intermediate technical authoring* training.

### After course support

Following technical author training, you're entitled to 30 days' email support from your trainer.

### Further information
